Summary

Hello there! I'm Rajneesh Khare, and I'm passionate about harnessing technology to streamline processes and drive innovation. As a Jr. Consultant - Automation Developer at WonderBotz, I've had the privilege of diving into the world of Robotic Process Automation (RPA) and exploring the endless possibilities it brings to the table.

My journey in this exciting field has been marked by some significant achievements. I'm immensely proud to have been a Joint Winner of the RPATools.com Hackathon'21, where I collaborated with talented peers to solve real-world challenges using RPA solutions. Additionally, my dedication and skills led me to be recognized as a UiPath Student Developer Champion'21, an accomplishment that fuels my drive to keep pushing the boundaries of what RPA can achieve.

My toolkit includes a deep understanding of Python, a versatile and powerful language that I leverage to create efficient and elegant solutions. I'm well-versed in UiPath, using it as a canvas to design and implement intricate automation workflows that optimize processes and enhance productivity. Moreover, my adventures with Django have allowed me to explore the world of web development, creating seamless user experiences that leave a lasting impact.

When I'm not immersed in lines of code, you can find me exploring new technologies, brainstorming innovative solutions, and keeping a keen eye on industry trends. I believe in the transformative potential of automation to revolutionize the way we work, and I'm excited to be a part of this dynamic and ever-evolving landscape.

Let's connect and collaborate! Whether it's discussing the latest trends in RPA, sharing insights about Python, or exploring the possibilities of UiPath, I'm always eager to engage with fellow professionals who share my enthusiasm. Feel free to reach out, and let's embark on a journey of learning and innovation together.

Experience

Jr. Consultant - Automation Developer

WonderBotz

Jul 2023 - Present (7 months)

Student Developer Champion

UiPath

Aug 2021 - Aug 2022 (1 year 1 month)

Core Team Member

Google Developer Student Club - CMRIT

Nov 2020 - Aug 2022 (1 year 10 months)

UiPath RPA Developer Intern

RPATools.com

Apr 2022 - Jul 2022 (4 months)

mh Application Tester

MeetHive

Aug 2021 - Sep 2021 (2 months)

Subject Matter Expert

Direction Educare

Dec 2020 - Feb 2021 (3 months)

Python Developer (Django)

Tink Tank | #Design #Branding #Customer # Experiences

Sep 2020 - Nov 2020 (3 months)

Content Writer

GyanApp

Aug 2019 - Oct 2019 (3 months)

Education

CMR Institute Of Technology

Bachelor's degree, Computer Science

2019 - 2023

Paras Vidya Vihar, Sagar (M.P.)

12th

Licenses & Certifications

C Programming Step by Step - Complete Tutorial For Beginners - Udemy
