Profile

UiPath MVP and certified specialist with hands-on experience in delivering end-to-end automation solutions. Joint winner of RPATools.com Hackathon 2021 and UiPath Student Developer Champion 2021. Adept at architecting bots, leading workshops, and continually upskilling in Agentic Automation.

Technical Skills

Tools: UiPath (Core, Orchestrator, AI Center, Document Understanding, Communications Mining, Agent Builder, Maestro), Winshuttle

Automation Domains: HR, Finance, Supply Chain, Telecommunications

Soft Skills: Coaching, teamwork, workshop facilitation

Professional Experience

Consultant – Automation Developer, WonderBotz, Bangalore

July 2023 – Present

- Designed and deployed 10+ UiPath automations across HR, finance, supply chain, and telecommunications domains, reducing processing time by 40%
- Delivered 30+ robust Winshuttle scripts for SAP process automation, streamlining data operations across procurement and finance

Certifications

UiPath Agentic Automation Associate, UiPath Solution Architect Professional, Specialized AI Professional, Advanced Developer Professional

Key Achievements

- UiPath MVP
- RPATools.com Hackathon 2021 – Joint Winner
- UiPath Student Developer Champion 2021
- Frequent speaker and mentor on Agentic Automation

Notable Projects

Invoice Processing with AI Center & Document Understanding

- Built end-to-end invoice automation using UiPath Document Understanding and AI Center
- Used ML-based field extraction with confidence thresholds for validation

Email Triage and Information Extraction Using Communications Mining

- Used Communications Mining to classify and extract data from business emails
- Routed information to downstream systems using UiPath automation

SSH Executor Service using Flask & Paramiko

- Created Python Flask microservice using Paramiko for SSH command execution
- Integrated into UiPath for secure infrastructure control

Education

Bachelor of Engineering, Computer Science – CMR Institute of Technology, Bangalore

2019 - 2023
